ADDOR is pleased to announce a further grant in support of the continued fight against Huntington's disease (HD), providing financial assistance to help an HD sufferer Rebecca Slack.

Rebecca Slack

Rebecca aged 47 lives in Pontefract, West Yorkshire. She has recently separated from her husband and has had to give up work due to the progression of her HD. As a result she has found herself in financial difficulty. She has gone from a household of two working adults to a household of no working adults and has applied to ADDOR for a grant to support clearing some of her debts. She needs in particular to clear her existing rent arrears, enabling her to move closer to her family and friends, who will provide additional support now that her main carer (husband) has left the home.

Before the onset of the Huntington's disease Rebecca loved spending times with friends and worked supporting people in the care sector. Now she enjoys spending time with supportive friends.

ADDOR is very pleased to provide a grant of £300 to help clear some of Rebecca's debts.

If you would like to help in the fight to defeat HD, fund research projects and help others like Rebecca.

Please donate at addor.co.uk
